### MLK Presentation, The History of People of Color in Schenectady, – Laura Lee

Laura Lee, Rotarian and Historian, shared a presentation on the history of African Americans in the Schenectady region. This presentation was developed with Marsha Mortimore, a member of the Duryee Memorial AME Zion Church, and the Schenectady Silhouettes. The presentation was developed because people of color were not represented in our history books. Background on notable events in black history that occurred in Schenectady and multiple historical documents are included in the presentation. Research has been done in private, church and government records, at libraries, archives, historical societies, museums, historic sites and cemeteries. Also examined was diaries, family genealogies, photos, movies, music and art, and memories of older people, There is still more history to learn and include in the presentation. The program has been shared in some Schenectady City Elementary Schools and is available to others.

Laura Lee has an excellent grasp of Schenectady history and shared a wealth of knowledge during the presentation. Some of the Schenectady black history discussed during the program included:
